

BATHSCAPE VIEWS AND VISTAS

This project aims to better understand, enjoy and record our landscape views throughout the Bathscape area.

What's your favourite view?

Do you have a favourite view in the Bathscape area? We are looking for volunteers to research and share their favourite viewpoints in and around the city. Using photography, fieldwork, and online research we want you to help us share the importance, history and ever-changing face of our celebrated local landscape views.

What happens next?

You can sign up for one of our online workshops where we will further explain the project and start the conversation on landscape and views. If you decide to join this project, over the next few months, we will support you in researching viewpoints to record our best-loved views and vistas, which will then be shared on our website.

How else can you help?

In the long term, we are also looking for volunteers to help monitor iconic views in the Bathscape to see how they are changing. If you are interested in finding more about this project, or would like to volunteer, please let us know during the workshop.

How do you sign up?

Please register your place for one of the workshops online [here](#) (or via the QR code) or express your interest directly by emailing the workshop facilitator: e.tabak@bristol.ac.uk.
